The ALL WOOL SUEDE-BLOOM COAT
LUXURIOUS LAPIN FUR TRIM
$14.75 POSTPAID NEW YORK TO YOU

- **Fine All Wool Suede Bloom.**
- **Fine All Silk Crepe Lining.**

Smart Style isn't enough, these days! Now all America is calling for *quality*! And no one welcomes the change more than Sears! We've made this coat expressly to show you how much good sterling quality we can crowd into one smart coat at *$14.75*! The rich, warm fabric is every thread wool, and it has the soft napped suede surface so much admired in the new coats. The Lapin Coney fur was imported from France to secure more perfect, thickly furred skins for you. We've used it unstintedly to make this luxurious wide rever collar and the high swirling cuffs. Even the interlining is an unusually firm quality that won't slip or pack. And the lining—that tell-tale index of quality—is fine All Silk Crepe! A separate belt comes with the coat.

REMARKABLE VALUE

If you want proof of Sears savings, here it is. Examine again the quality of the material in the sample attached to the other side of this sheet. See the luster and beauty of the silk-like mercerized fabric. Vision these curtains in your finest rooms, their raised dots denoting the smartest in drapery effects.

And then look at the price. Truly an achievement in value giving. Seldom has one dollar ever bought so much—never, in our experience, has it ever bought curtains so new, so stylish, so smart, so serviceable.

It took a 300,000 pair order to America's largest curtain manufacturer to get it. But we knew that once you felt the actual material, saw the attractive style you would buy every one we had contracted for.

Both Anne Williams, our Stylist, and Sue Roberts, our Home Adviser, were unusually enthusiastic abou the quality, beauty and style of these curtains.

Only a value 'way out of the ordinary, even in these times, coul command this position in our greatest value-giving catalog. We' willing that you should judge Sears by this example of econom

his is Not an Ordinary Catalog"

R. E. WOOD
PRESIDENT

SEARS, ROEBUCK AND CO.
EXECUTIVE OFFICES

These are not ordinary times nor is this an ordinary catalog. For that reason I should like to take a moment to review with you briefly what Sears, Roebuck and Co. has done this season, in this catalog.

Of greatest importance today are the costs of the necessities of life. That we have realized. We have planned for it. We have sacrificed our own profits so that those most affected may still be able to secure the needs of their families at the lowest prices at which satisfactory, dependable goods can be sold. I cannot emphasize this broad Sears policy too strongly.

We realize that men and women who work, and their children who go to school, must be warmly clad this fall and winter. So arctics and shoes, flannel shirts and work gloves, overalls and warm clothing, have been drastically repriced.

We realize economy dictates that women must sew more this year, using their own talents to bring their families the apparel they will need. And we at Sears meet this emergency with radical price reductions on all sewing needs, not alone on yard goods and notions, but on comforter materials as well. Other home necessities, such as things for the laundry, have been cut the maximum because we know this year every penny will count, as seldom, if ever, before.

Repairing, rather than replacing, will be the order in many families. In this book there is welcome news in the low prices on shoe repairs, automobile repairs, harness parts and many, many others.

We recognize the struggle that is taking place everywhere to make ends meet. Although we cannot control or influence the prices you get for your products or your labor we can — and do — bring you the things you need at lowest costs. In this way we help to equalize, insofar as it is possible, your income and your expenses.

Go over this catalog, at your leisure. Study the prices and the quality. Then we will leave it to you to judge how well we have done our part.

I thank you on behalf of our company for your patronage and your good will.

Sincerely,

R. E. Wood
President.

One of Our Large Eastern Mail Order Stores

MAIL ORDER PRICES ARE THE LOWEST . . . QUALITY CONSIDERED

WE operate our business, whether retail or mail order, on one small margin of profit. But cost of selling and service varies.

We can and do buy for less. Our enormous purchases, economical methods of distribution, low cost of selling, both in our stores and through our catalogs, insure our customers better goods for less money.

In the mail order division, the catalog is the salesman. It awaits your pleasure in the selection of merchandise. You perform, in your own home, in purchasing by mail, many of the functions of a retail salesperson. Your orders, and thousands of others, are concentrated in one of ten huge distributing plants where, with a minimum of expense, they are handled and dispatched.

Automatic machinery—conveyor belts, gravity chutes, pneumatic tubes—permit the speedy and economical filling and shipping of your goods. Many articles listed in our catalogs are shipped direct from our factories to you, eliminating still further the expense of handling as well as the warehousing and carrying of heavy, bulky merchandise.

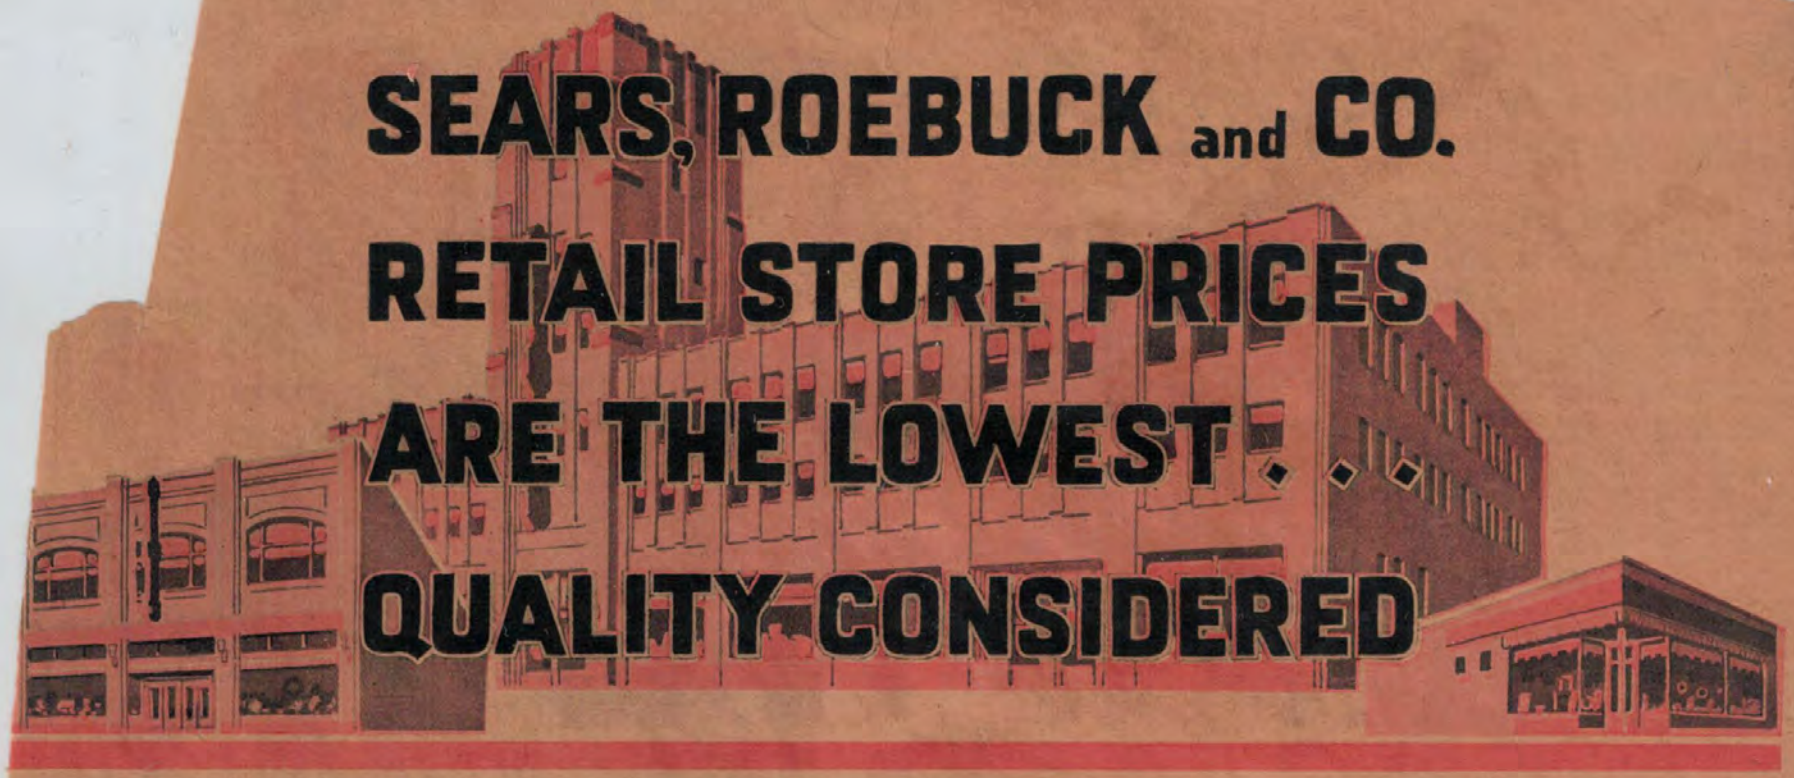
For convenience and to permit still further reductions in cost, many articles come to mail order customers ready for assembly. Nat-rally, this costs us less than when h articles are fully set up. In such cases you should, and at Sears do, get a lower price by mail.

Based on our own experience and a thorough understanding of the actual experiences of other retailers, we know that the mail order method of selling is the most economical ever devised, particularly for rural districts and small towns. That is why prices in this catalog, generally speaking, are lower than prices asked even in our own retail stores.

IT'S EASY TO SERVE YOURSELF BY MAIL

OPENING CUSTOMERS' MAIL AT SEARS

INSPECTING AND WRAPPING MERCHANDISE



SEARS QUICK SERVICE TO YOUR DOOR

On the other hand, Sears retail stores, because of our tremendous purchasing power and economical methods of distribution, are able to offer our patrons decided savings over usual retail prices.

Retail stores demand efficient well trained salespersons. They demand a sufficient number of these salespersons to serve their customers on their busiest days. This service costs money. A good salesperson will assist in the selection of goods, will offer advice as to the proper use of the merchandise selected and will devote to each customer all of the time that customer may need, whether a sale is actually made or not.

A store must be well located, well lighted, efficiently manned, properly advertised and, above all, must carry a fairly complete stock of the kind of goods it offers for sale. Rent, investment in inventory, payroll, advertising, losses due to

SEARS, ROEBUCK and CO.

RETAIL STORE PRICES ARE THE LOWEST . . . QUALITY CONSIDERED

soiled and damaged merchandise because of handling in the store, all must be considered in arriving at the selling prices it is necessary to ask.

Customers of retail stores have been educated to expect service on certain lines of merchandise after the goods have been sold. Slight adjustments in stoves, washing machines, radios and electric refrigerators, for instance, require service men whose time and cost of travel become a part of the fixed expense of the retail store.

These services and all others offered generally, are available to our retail store customers, but they are offered at the low prices for which Sears is famous the country over. As a matter of fact, it is our policy that prices in our stores on our merchandise, quality considered, shall show you a substantial saving.

On occasions you may find that the prices asked in our retail stores are less than those quoted in our catalogs. There are, of course, good, legitimate business reasons for such exceptions. Retail sale periods do not always coincide with the sale events of the mail order division. Overstocks may develop in certain stores. In order to move these stocks of seasonal goods and in conformity to retail selling practices on the part of all merchants, prices may be lowered even below actual cost.

You are thus assured by Sears, Roebuck and Co. the lowest prices on comparable merchandise for the same type of service. As explained previously, in most cases our mail order selling prices will be lower only because it costs us less to do business that way.

We invite your patronage in our retail stores and through our catalogs. We consider it a privilege to display our goods, to prove the quality of our offerings, to guarantee you a saving on every purchase.

ALL WOOL MONOTONE CREPE
WITH MANCHURIAN "WOLF-DYED" DOG FUR

THIS is the deep, glossy black fur we've always saved for our more expensive coats! First time we've used it on a larger-sized coat for only $13.95! The fabric is a warm, all wool Crepe with a faint interesting cross weave beneath its surface. Fine tucks and slender panels shape the back. Although you'd expect an ordinary lining with so much other value . . . this coat is finished with sparkling Rayon and Cotton lining and warmly interlined.

ALL WOOL SUEDE-BLOOM
WITH "MINK-DYED" FRENCH CONEY FUR

LAVISH trimmings of soft, fluffy brown fur make this look like a costly Mink-trimmed coat! There's a feeling of luxury, too, in the deep, soft-surfaced Suede Bloom fabric. There's a rich sparkle to this Rayon and Cotton lining. Every detail adds to the impression of fineness and quality this coat creates. The fur is the *better* French Coney Fur. The fabric is *All Wool*, of *better* construction. A Rayon and cotton lining with firm interlining and careful tailoring help retain these smart lines for the life of the coat.

QUALITY MANCHURIAN "WOLF-DYED" DOG FUR

$17.95 POSTPAID NEW YORK-TO-YOU

ALL WOOL CREPEY-TONE

- **All Silk Crepe Lining.**

This is *"Quality"* Manchurian Dog Fur! That means it's more densely furred! It's fluffier, softer, finer textured than ordinary grades —with less sheen and more depth and much longer wearing quality! And here it's used on one of the better types of woolen! A flat, crisp surfaced fabric covered with pin-point pebbling so tiny you have to look closely to notice it. A fabric that wears splendidly! It's gracefully paneled at the sides, well interlined and richly lined with All Silk Crepe.

ALL WOOL CREPE SUEDE GENUINE MINK TAILS FUR OF BEAUTIFUL QUALITY

- **All Silk Crepe Lining.**

Mink trimmed coats usually cost anywhere from *$65* to *$150*! But we've discovered that the genuine Mink tails have practically the same lustrous beauty, the same rich brown shading as the rest of the skin—and they aren't quite so expensive. Here we've used scores of them, inserting a thin edge of dark Coney away down beneath the fur at each joining to add strength and emphasize the striping. The new Crepe Suede is woven with a soft lustrous nap. Warm interlining. Separate belt included.

These Two and All Our ALL RAYON FROCKS Are Made of the Famous Tested-Quality CROWN BRAND RAYON

★ RICHER, HEAVIER QUALITY
★ WON'T SLIP AND PULL AT SEAMS
★ GREATER WEARING POWER
★ TESTED FOR QUALITY

NOTE the "Crown" label! It's the symbol of tested quality fabric—the fabric used in this smart All Rayon frock. Run your fingers over the material—feel its heavy, rich silk-like texture. When you wear it, note—as your admiring friends certainly will—the good "lines" that are possible only when *good* fabric is used. The bib-front style is a smart new one. A bit of lace and that softly draped cowl "flatter" at the neck-line. Prints may vary.

SWAGGER NEW STYLES FEATURED IN GENUINE LEATHER

It's a year for *Leather* because it's a year for *quality*. Nowadays, girls and women are asking, not "How much is this jacket?" but "How long will it wear?" And everybody knows a *good* leather jacket never wears out. Ours *are* good. All our leathers are *grain* leather, the choicest part of the skin. All are first quality, without flaws or blemishes. All are evenly and richly dyed in fast colors. All are carefully sized and smartly cut. They fit with grace and comfort that's hard to find in jackets at these prices.

How to Order Hair

Send full length sample cut from head close to the roots (combings are not good samples). For gray mixtures, if the shade varies in front and back, send two samples. State whether you want roots, center or ends matched. We match center unless otherwise instructed. Actual samples of your own hair are preferred but we will gladly submit samples for your selection if necessary. State **quality** and **color** desired. We guarantee to match your samples perfectly.

Prompt Delivery

Since most hair pieces are especially made up to match your sample on difficult shades we sometimes require from 8 to 12 days to deliver, but the average order is shipped within 5 to 8 days.

"Clingtex" Elastic CORSETRY

THE SENSATIONAL Style SUCCESS

♦ "CLINGTEX" is marvelous for comfort and smoothness. Hugs figure closely, almost like a "second skin." Makes waist and hips inches smaller.

♦ "CLINGTEX" stays fresh and dainty because it washes and irons easily. And it retains its elasticity, too! Sears' low price policy assures you a big saving.

♦ "CLINGTEX" models are fashioned of LASTEX—the wonderful new patented E-L-A-S-T-I-C yarn that stretches in length as well as in width. ♦ New Two-Way stretch yields to your every movement and prevents garment from slipping up when you bend or sit down. Takes strain from supporters lengthening life of your hose.

"Clingtex" TU-WAY STRETCH FOUNDATION

- **LASTEX BACK and SIDES.**
- **PRE-SHRUNK Quality Brocaded Rayon Batiste Front. Smart Peach-Blush Shade.**
- **Youthfully Shaped Bust and Top Back of Gleaming Rayon Jersey.**

A brand new foundation! You'll feel free in it—it's so wonderfully flexible! Controls and restrains in just the right places. Wears, washes, easily ironed. "Dia-Check" patented lightly boned reinforcement under front panel. No boning elsewhere. Semi-step-in style. Has hooks at side to hip line with soft silky plush underneath. A really remarkable value! Four narrow, double garters. Length, over bust, 21½ in.; low back, 17½ in.

18K186—Even and odd bust sizes, 32 to 40 inches. Give bust and hip measure taken over dress at fullest part.

- **Glorious, Comfortable, Ventilating. It's Lockstitched, Can't Run.**
- **Smart Peach Blush Shade.**
- **Soft, Lightweight, Boneless.**

Yields to your every movement and feels more comfortable than anything you have ever worn. Perfect moulding with comfort. A regular $7.50 value! Low Back, four narrow, double garters. Silk shoulder straps. Length, side front, 21½ in.; back, 15 in.

18K106—Bust sizes, 32, 33, 34, 35, 36, 37, and 38 in. Give bust and hip measurements taken over dress at fullest part.

- **You'll Like It Because It Feels So Utterly Comfortable.**
- **Stays Put—Clings to Figure in All Positions.**

Fashioned of Tu-Way Stretch Lastex. It fits so snugly, washes and wears so splendidly, that women the country over have warmly endorsed it! It's almost "light as a feather," but extra strong, extra long-wearing! Just try it! In the new, smart Peach Blush shade. Length, 14 inches. Four loop style garters. Light concealed boning in the Rayon satin top front panel—no boning elsewhere. Just soft, resilient, clinging Lastex.

18K183—Waist sizes, 25, 26, 27, 28, 29, 30, 31, and 32 inches. State waist and hip measure taken over dress.

Women the World Over Acclaim Nu-Back

The Corsetry "That Stays Put"

"NU-BACK" HAS BECOME THE MAGIC WORD IN THE WORLD OF FASHION IN CORSETRY

Cables from European style centers, from Cape Town, from Melbourne, and from many other fashion points tell of the great reception extended "NU-BACK." Thousands who have worn "NU-BACK" speak with admiration of the new freedom in corsetry. No other garment is like NU-BACK. The idea is exclusive and patented. The "Sliding Back" stays smooth—yet allows you to sit, stoop, bend, or twist in any position with the greatest comfort. NU-BACK will not "Crawl" or "Ride Up" on figure. It will not bulge or push up your bust when you sit down. The upper part moves along with the natural muscles of the body—the lower part "stays put". Don't be confused by claims of others; "NU-BACK" is the patented garment which *"Won't Ride Up"*.

Anne Williams Broadcasts Fashions to You

FASHION CABLES FROM PARIS SAY:
"Never in all history have corsets been more necessary." In ordering corsetry you should know your figure type and height. You are short height if 5 ft. 2 in., or less. You are average height if 5 ft. 3 in., to 5 ft. 6 in. You are tall height if 5 ft. 7 in., or over. All heights in stocking feet. Study the silhouettes shown at the right, and compare with your own figure. Determine whether you are slender, average or stout; also whether of short, average or tall height. Order the style recommended for your particular type. *We guarantee to please you.*

ROLY POLY DIAPERS • HEMMED AND READY FOR USE

Roly Poly is our own brand. These diapers are made according to our own specifications by the best mills in the country; we guarantee them to stand first and foremost in quality and Value. We stress quality, because it's the only foundation for real Value.

BEST QUALITY • Birdseye Cloth

Volume Sales Create Value in Roly Poly Diapers

The magnitude of our order for our many stores cuts mill costs substantially. Your saving on these Roly Poly Birdseye Diapers is correspondingly substantial. Made from high grade, bleached pure white, cotton yarns. Soft, highly absorbent, and non-irritating.

When not included in orders of $2 or more, send postage required as indicated below.

DURABLE QUALITY COTTON FLANNEL • FLEECED ON BOTH SIDES •

Good Quality at a Low Price *That is* VALUE

Thrifty mothers who realize that values are far greater than ever before, do not lose sight of the fact that **QUALITY** is still most important. Roly Poly Cotton flannel Diapers, softly fleeced on both sides, are firmly woven from snowy-white, long staple cotton, and are not to be confused with the lighter weight, inferior quality found in the market at our prices or even higher. We stress quality, because it determines the value you receive for your money.

BEST QUALITY COTTON FLANNEL • PLAIN WEAVE BACK •

QUALITY

It's ridiculous to pay high prices for diapers today—but it's even more foolish to pay too little.

For outstanding value at low price, we recommend our Best Quality, Roly Poly, Plain Weave Back, Cotton Flannel Diapers. Extra Quality! Extra Weight! Two of the many reasons why they are superior values at our low price. Try them! You'll be convinced they are wonderful values.

BABY FOODS

Select Maltose Dextrine

Many breast-fed babies are undernourished because their mother's milk is lacking in the carbohydrates, dextrine and maltose needed to create heat and energy. Select Maltose-Dextrine supplies these essential elements. It is easily assimilable and instantly soluble in hot or cold milk or water. May be used either to entirely replace breast-feeding or to supplement it. Feeding schedules and formulas are on the package.

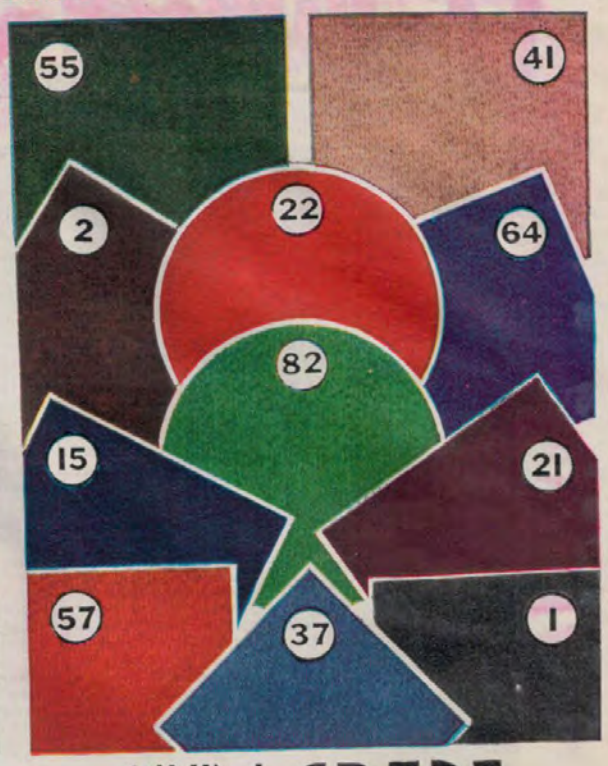
NEW Dress Weight WOOLENS Prove Their STYLE

Moorlaine Wool and Silk TWEED

Light Weight Supple..Great Favorite,Too,for Sturdy Togs For School Age Children



- Nubby Tweed Weaves
- New "Snowflake" Effects
- Width, 36 Inches

Your daughter will gladly wear a "warm" dress if it has the style and dash contained in our smart snow-flake tweed. And for year-around-wear a jolly suit of the Scotchy-looking nubbed tweed. About half wool for warmth about half silk noil (lusterless silk) for dressy style. One of our biggest sellers—that's why we can price it so low. Prevailing favorite with the younger generation demanding togs with plenty of pep. **When not included in a $2 order, send 4¢ a yard for postage. State pattern number.**

Fashion gives dignified approval to these NEW WEAVE Tested Quality RAYONS

All fabrics featured on this page have passed the rigid specifications of the Viscose Company's Quality Control Plan and have been tested and endorsed by the Better Fabrics Testing Bureau of the National Retail Dry Goods Association for:

1. Yarn Quality ***3. Wearability***
2. Fabric Construction ***4. Strength***

and are entitled to bear the Crown Tested Quality identification mark.

The Viscose Company, the world's largest producers of rayon yarns, are the originators of the Quality Control Plan whereby only fabrics made of the best rayon yarn and the most sturdy cloth construction can bear the Crown Tested Quality identification mark.

Style revolves around "weave", so we photographed the actual fabrics to show weave and texture

Silk Is Queen in the Realm of Fashion • Smarter Than Ever!

Capricious FASHION Says: Silks . . . always . . . because they are luxurious, aristocratic and most desirable of all the style fabrics. Practical, too . . . a strand of silk is almost as strong as an iron wire of equal diameter! At Sears all silks are fashion-right as to weave and color and letter-perfect as to quality. Our laboratory inspects, checks, tests, and PROVES.

Actual fabric photographed. Natural looking, but it cannot show the soft, petal like textures and gorgeous colors.

Bolt of the actual fabric photographed to show the weave; but wait until you see its silken beauty, its style and smartness!

THE GREATEST DEVELOPMENT since the DISCOVERY OF SILK

Fairloom WATER SPOTPROOF SILKS 98¢ A YARD

INTRODUCED BY Sears

PERFECTED BY Sears

GUARANTEED BY Sears

A Secret Sealing Process

- Prevents Water spots
- Protects the Tiny Strands of Silk
- Adds about 19% More Strength

How Glorious . . . Even in a Deluge of Rain

NOT A SPOT REMAINS

Perfected . . . . Tested . . . . Proved in Our Own Laboratory.

The Romance of SILKS, Made WATER SPOTPROOF: 5,000 years ago a Chinese Princess watched a caterpillar spin a fairy-like filament about itself until it formed a cocoon. She conceived the idea of unwinding the fine filaments, combining into threads and weaving into cloth. That's the origin of silk. Marvelous!

And in our own age something equally as marvelous. Silks . . . EVEN VELVET . . . made Water Spotproof! **(See page 161 for Water Spotproof Velvet.)**

Perfected, tested, PROVED in our own Laboratory; a secret sealing process prevents water spots, even in a deluge of rain no marring ring or spot remains. In weaving silks shown on this page no substitute is used; they're **all silk, every thread. . . .** No coating to wear off; permanently water spotproof. Yet the cost is no more than you'd pay elsewhere for equally fine quality without this water spotproof feature.

We don't just take the manufacturer's word for it when we tell you a fabric is fast color. Cottons shown on this page have been tested and re-tested in our laboratory. Not unless it successfully passes these tests, do we list it in our book. In addition we offer better qualities, greater assortments, more style, than you'll find at any other store at such low prices. You save most here because we buy in such large quantities we can afford to sell for *less*.

Birdseye WEAVE DIAPER CLOTH

Our Famous ANGEL BRAND

High Grade .... Extremely Low Priced

—Sanitary. Packages Sealed at the Mill.
—Non-Irritant. Very Absorbent.
—Bleached Snowy White.

We scoured the market to see if better value was POSSIBLE—but Angel brand surpassed all others. High grade—gives satisfactory service — recommended by doctors because it's sanitary. In actual tests, after 100 or more washings it was found soft, velvety, absorbent—nearly as good as new.

INDIAN HEAD

THE CLOTH OF A HUNDRED USES

MOST COMPLETE RANGE of WIDTHS

Lower Prices, Too!

—Heavy Weight.
—Very Firm Weave.
—Permanent Linen-Like Finish Cotton.
—Bleached Snowy White.

This is the genuine Indian Head with the name stamped on every yard of selvage. Has beautiful appearance and luster, and a new permanent linen-like finish which it retains after repeated washings. The 18-inch width is ideal for embroidery work, napkins; the 36-inch for aprons, smocks, professional workers' uniforms. The 44, 54, and 63-inch widths make nice tablecloths, and are also used for special sheets.

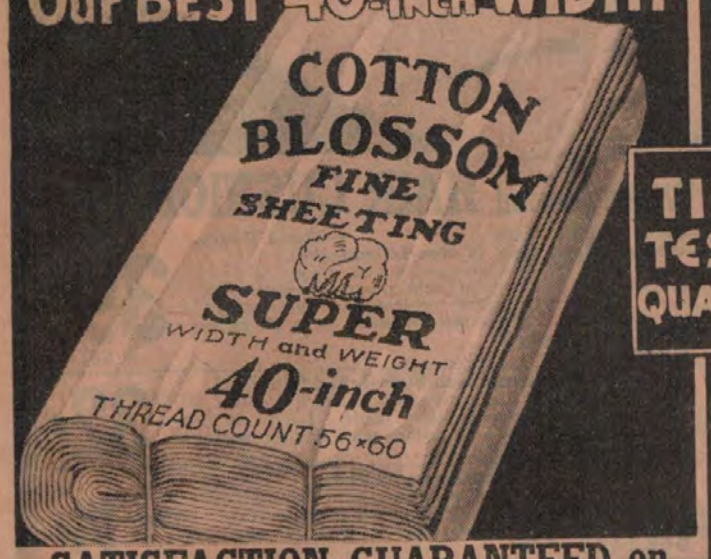
UNBLEACHED SHEETINGS



GUARANTEED LOW PRICES

These sheetings were purchased when the cotton market was very low. This, combined with our large buying power, enables us to make extraordinarily low prices to our customers. Thread count tells you the relative comparison of qualities. We recommend you buy our better grades now at these lower prices.

DEPENDABLE QUALITIES

Good cotton is a most important factor in making good quality sheetings. There are long fiber and short fiber cotton yarns; nice clean, cream color cotton and off-color cotton. Our sheetings are woven from good staple cream color cottons, exceptionally clean. Read about Quality on page 200.

Our BEST 40-INCH WIDTH

TIME TESTED QUALITIES

SATISFACTION GUARANTEED on This Better Grade...WIDER WIDTH

—Weighs 4.5 oz. to the yard.
—Soft, Very Absorbent.
—Natural Cream Color.

Cotton Blossom Sheeting is very carefully made, and is always uniform in quality. The cotton put into it is of such good grade that the yarns do not have to be spun very tightly for strength. This adds to the softness. The natural cotton wax washes out easily in the first laundering, making this cloth unusually absorbent. **When not included in a $2 order, send 2¢ a yard for postage.**

CHOICE COTTON BATTINGS

ONLY new, long staple cottons, of exceptional softness—with no harsh fibers—go into Sears battings. Made in clean factories, every precaution is taken to keep them sanitary. When you make your own comforters you know good, clean material is used. *It's No Task at All to Make Them!* Stitching two straight seams to form the cover, tufting at equal distances, finishing the edges—surely that is easy. There's a wealth of fascinating fabrics for you to choose from on the opposite page. *Save Half the Cost.* It doesn't seem possible, but ready-made comforters do cost almost twice what you'd spend when you make yours yourself. Our prices on battings are based on the lowest cotton costs in years. Quality for quality, we don't believe you could duplicate these values anywhere.

QUALITY'S THE THING TO WATCH THESE DAYS

When you buy Artillery Grade Ducks you are assured of getting high quality. For years our prices have been lower than prices elsewhere for comparable grades. The reason is: we buy in such large quantities, and place our orders with local mills, thus cutting down freight charges to our Mail Order Stores and reducing costs. Don't think because others ask more money their ducks are of better grade.

VERY HEAVY - STRONG - SERVICEABLE GRADE... *Others Ask Higher Prices*

—Woven of Long Staple Cottons. —Natural Cream Color.
—A Square Yard Weighs 10 Ounces.

The cotton used for it is exceptionally clean and free from any specks caused by plant leaf—so clean, in fact, that at times the duck appears to be white. It is of double filling, meaning that two threads are woven as one. The warp (lengthwise) yarns are exceptionally strong. Protects farm machinery—used for wagon covers, tarpaulins, tents, bags, or shelters. **When not included in a $2 order, send postage stated for each number.**

NOT AFFECTED BY WEATHER Doesn't Stiffen Like Cheaper Grades

—Thoroughly Waterproofed. —Will Not Crack or Harden.

Has what is called a DRY FINISH—waterproofing is not done with oil, grease or paraffin. Paraffin finishes harden and crack with the cold. Oil or grease finishes let the color rub off. Our process makes the duck soft and pliable in all kinds of weather, and **color does not rub off.** Nor does this process reduce the strength—our duck is exceptionally strong. **When not included in a $2 order, send postage stated for each number.**

WIDE SHEETINGS

You Can Depend on Quality at Sears

We've tested 15 sheets with 148 Washings and Ironings (Equal to 5½ years actual service). Three sheets each of 4 leading nationally advertised brands, all selling at higher prices; and 3 each of our own sheets were in this test. Only four sheets were serviceable after the test. **TWO OF THESE WERE SEARS SUPER SERVICE *Launderite* SHEETS.** Our Super Service *Launderite* wide sheeting is the same material used in these sheets that tested so favorably against others selling for higher prices. Our **STANDARD SERVICE *Launderite*** wide sheeting is just as carefully tested, and price considered, is as far ahead in this price class also. Our pillow tubing is the same material in tubing form. You cannot afford to accept less durable quality than Sears offer you at lower price.

· FULL STANDARD QUALITY ·

—64x64 Thread Count. —Practically Pure Finish.
—Strong Selvages At Sides. —Hand Torn for Straight Hems.

All that the name implies—a very serviceable wide sheeting that will give very satisfactory wear. The most popular grade we handle—the quality and satisfaction it has given, along with our low prices tell the story why we sell more wide sheetings than any other retailer in the world. **When not included in a $2 order, send 4¢ a yard for postage. On orders of 10 yards and over send 2¢ a yard for postage.**

- Counts 68x72 Threads to the Square Inch.
- Hand Torn for Straight Hems After Washing.
- Exceptionally Smooth
- Practically Pure Finish.
- Wide Tape Selvages.
- Extraordinarily Strong.

To enable our customers to compare qualities, prices more easily, we're now calling our Guest Chamber sheeting "Super Service Launderite." This sheeting has been improved greatly over the Guest Chamber of a few years ago. Whereas, to our knowledge, every customer who has purchased Guest Chamber in the past was satisfied, we know that every customer buying Super Service Launderite will receive a sheeting that will outlast any other cotton sheeting made. All we ask is a trial . . . we absolutely guarantee you'll be more than satisfied. **When not included in a $2 order, send 4¢ a yard for postage. SERVICEABLE - LOW PRICED

—Made from Clean Stocky Cottons.
—Good Weight. —Hand Torn.

Considering its very low prices, we honestly believe this to be the best sheeting of its class. The quality is not as good as our Launderite Standard Service, nor is Wonder Value anything as finely woven as Super-Service Launderite, but this sheeting will give you satisfactory service at amazingly little cost. There are lower grades made, which can be sold for less money, but we feel they are of such cheap quality that, in the long run, prove high priced. The unbleached grade becomes slightly heavier with washing and gradually bleaches a nice white. **When not included in a $2 order, send 4¢ a yard for postage. On orders of 10 yards and over, send 2¢ a yard for postage.**

Popular Grade SHEETS AND PILLOWCASES

Quality Constantly Improved

We Honestly Believe You CANNOT Buy a Sheet Equal in Quality at Such LOW PRICES

- Full Standard Quality.
- 64x64 Thread Count.
- Practically Pure Finish.
- Hand Torn for Straight Hems.
- Strong Selvages at Sides.
- Very Finely Stitched Hems.

Launderite Standard Service Sheets are constantly being tested—compared with other brands, worked upon, improved, until not a single thing one could wish for in a sheet is lacking. Today, unhesitatingly, we can say they're the BEST IN THEIR CLASS and THE LOWEST IN PRICE.

Only good, staple cotton is used for Launderite Standard Service Brand. This enables it to bleach to a clear dazzling whiteness not often found in qualities priced as low. Hems finely stitched . . . always an identifying mark on GOOD sheets and pillowcases. And the size range offered is unusually large. You will find a sheet here for every size bed. When ordering, be sure to select sheets that are long enough. We recommend the 99-inch or 108-inch lengths.

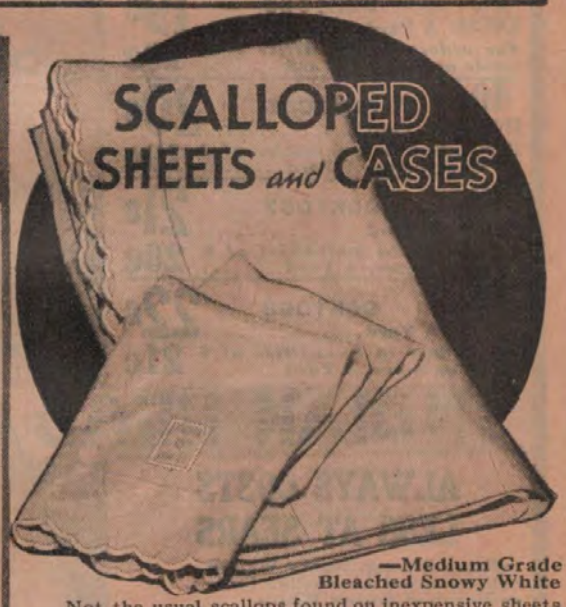
WONDER VALUE IS SERVICEABLE ~ Costs Little

—Good Weight Made from Clean, Fresh Cottons.



Not quite as heavy quality as Launderite, but a good serviceable grade that fits the needs of homes where economy is the watchword. Wonder Value is not excessively weighted, and only clean, medium staple cotton yarns go into the making of it. This enables us to get an exceptionally nice blue-white bleach—which is lasting.

High Quality SHEETS AND PILLOWCASES

IN 148 WASHINGS AND IRONINGS
Super Service Launderite OUTWEARS
Four Other Leading Brands

We sent the AMERICAN INSTITUTE OF LAUNDERING 15 sheets—3, each, of 6 leading brands—and said, "Wash and iron them, over and over, until some one brand really stands out as best."

After 148 washings and ironings—equal to about 5½ years' service in the home—only 4 sheets were returned to us in usable condition:

2 of the 3 SUPER SERVICE Launderite
1 of 3 of a Well Known Brand, Selling At $1.35
1 of 3 of a Well Known Brand, Selling At $1.00

Even at 125 washings several had gone to pieces so badly they were removed from the test. Others were frayed, torn, ripped—1 sheet showing 39 holes.

ALL SHEETS WERE IRONED AFTER EACH WASHING—and *ironing*, as you know, is much harder on sheets than just washing and drying alone . . . . SUPER SERVICE Launderite sheets are bleached a pure, snowy white. Count 68x72 threads to the square inch, are hand torn for straight hems. They are finely, closely woven of smooth, sturdy threads, a big factor in Super Service Launderite's amazing wear.

Do You Consider These Points When Buying SHEETS • YARD GOODS • LINENS TOWELS • CURTAINS and BLANKETS?

In the selection of any kind of merchandise, isn't it important that you know what determines quality—what makes the goods wear longer, look better or serve its purpose faithfully? Here, SEARS tell you what points to consider in purchasing sheets, yard goods, linens, towels, blankets and curtains. These are the inside facts about the merchandise—things to know, to consider and compare, whenever and wherever you buy. Note how SEARS give you *all the facts* about each article, in each merchandise description, enabling you to judge, to compare, to know exactly what you are getting when you buy at SEARS.

FACTS about SHEETS and YARD GOODS

The IMPORTANCE of Thread Count—Thread count determines largely the wearing quality of a woven material. It is the most important point to consider when buying sheets, sheeting, pillowcases, tubing, and practically all yard goods. Thread count is the actual number of threads in each square inch of cloth. Providing the quality of threads is equal, the more threads there are to the inch, the better wearing will be the quality.

Super Service Launderite (Guest Chamber) sheets have a thread count of 68x72, which means there are 68 threads to the inch in the warp (lengthwise threads) and 72 threads to the inch in the woof, (crosswise threads), sometimes known as the filling threads. When the number of threads running lengthwise is practically the same as the number running crosswise (as in Super Service Launderite sheets) a closely woven, well balanced weave is the result.

Finish—In the process of manufacturing sheets and other fabrics, a sizing such as starch is added to give the material a body, like you do at home when you add starch in laundering. This is called giving the sheets or cloth a *finish*. Poor fabrics usually contain, in addition to sizing, a weighting or chalky material to make them look like better quality. You can usually detect the amount of weighting in a sheet by running your fingers along the back. If it has a hard, crisp, chalky feeling, it is most likely full of weighting. To be sure of getting pure finish materials buy them at Sears where they are laboratory tested.

Hand Torn Sheets—When sheets and sheeting are hand torn, the tearing follows one thread all the way across, insuring permanently straight edges and even hems after washing.

Tape Selvage on Sheets—The selvage of a sheet is the edge of the fabric. When edges have tape selvages, like Sears Super Service Launderite (Guest Chamber) sheets, a number of heavy threads are woven in to doubly reinforce the edge and make it extra strong and prevent raveling.

Sizes—It is the trade custom to list sheets in the sizes they are before being hemmed. The hem uses about 5 inches of the length of each sheet. That's why sheets listed as 72x108 inches measure about 72x103 inches, and the same with other sizes. Sears list a larger range of sizes in sheets and pillowcases than is usually offered elsewhere.

Consider the above points when buying sheets and pillowcases on Pages 198 and 199; sheeting and tubing on Pages 196 and 197 and other yard goods on Pages 158 to 183; 186–190.

FACTS ABOUT LINENS

99% OF OUR BETTER LINENS ARE MADE IN SCOTLAND OR IRELAND

Scotch and Irish Linen—We need not tell you that Scotch and Irish linens are considered the finest in the world. We import them direct. Our linen buyers make a trip to Europe every year to select personally the most beautiful linens and most attractive designs.

Quality—Linen is made of Flax, one of the strongest of the commonly used vegetable fibers. The quality depends largely upon the length of fibers and the smoothness of the yarn or thread. The long fibers are the best and are known as *ligne* fibers. The short fibers are called *tow* fibers. When you buy the better quality tablecloths and napkins at SEARS you can be positive they are made of *ligne* fibers.

Absorbency—Linen absorbs water quicker than any other fabric and also dries readily. Good grades of linen do not lint, or become fuzzy.

Consider the above points when buying tablecloths and napkins on Pages 232–238, 242–243; handkerchiefs on Pages 244, 246–247; fancy work on Pages 245, 248–249.

FACTS ABOUT TOWELS

Bath Towels—Sears specifications on towels are very exacting and our laboratory tests many grades for durability and absorption.

Turkish Towels—are the type used for bath purposes and are also known as terry towels. The terry is formed by the little loops that come up from the foundation or ground cloth, to form the pile.

Durability—Because the wearing quality of a towel is not determined by the loop surface or pile, but by the weave of the ground cloth foundation, Sears buy only towels that are closely woven so that the loop is held firmly. Such towels will wear well.

Absorbency—The absorbency of a towel depends largely on the looseness of twist in the yarns and whether the pile surface is *single* or *double loop* construction. Double loop means there are two threads side by side which form double loops instead of one as in single loop construction. A towel with double loops provides more drying surface. At Sears we base our claims for absorbency on laboratory tests.

Other Towels and Toweling—Outside of bath towels and wash cloths, *linen* is very desirable because it absorbs rapidly and dries quickly. Linen towels are sturdy, long wearing and launder easily. We believe that quality for quality our prices on towels are lower than elsewhere.

Consider the above points when buying towels and toweling from Pages 239–243, 245.

FACTS about BLANKETS and COMFORTERS

Warmth and Service—To provide warmth, softness and long wear, SEARS blankets have a deep, thick nap which is obtained by using well-twisted yarns of long fibers.

Weight—Two blankets may be of the same construction and materials, may look alike, and be the same size, but one weighs more. This means that somewhere in its construction, the lighter blanket has sacrificed quality (by using less material) which means a sacrifice in warmth, service and long life. Sears blankets are priced on a per pound basis to give you most for your money.

Length and Width—The larger blankets are more satisfactory as they can be tucked under the mattress at the foot of the bed and the extra width provides full, comfortable covering for the entire body.

Color—A poor grade blanket cannot have good colors, as the cheaper materials will not take the dyes properly. Insist upon the binding matching the color of the blankets (Sears do match).

Comforters—In the manufacture of comforters, finished sizes measure less than cut sizes because of shrinkage in the making and variance in the elasticity of the filling materials. Sears list the cut sizes and also tell you frankly what quality of filling is used.

Consider the above points when buying blankets and comforters from Pages 201 to 208.

FACTS ABOUT CURTAINS

Style—When buying curtains and draperies, think first of style. Select the type of curtains that are most suitable for the room in which they are to be used. To bring you the latest styles, Sears curtains are selected by a group consisting of our buyer, a stylist and a home adviser.

Quality and Size—In most types of curtain materials, the fineness of the thread and the closeness of the mesh or weave determines quality. All Sears curtains are manufactured under our strict control of quality and workmanship. Prices naturally vary according to the quality, design, width and length. **All of Sears curtains are at least 2¼ yards long.**

Voile, Marquisette and Grenadine curtains are extremely popular because they launder easily and do not have to be stretched. They can be ironed satisfactorily. The following will identify each material: *VOILE* is a plain weave consisting of well twisted, even yarns . . . *MARQUISETTE* is a gauze-like (light weight) fabric with an open weave, yet every thread is held firmly in place because of the method of construction . . . *GRENADINE* is similar to Marquisette but in addition has dots or figures woven in.

Colors and Designs—In selecting colored curtains or those with colored designs, it is best to select those which are *tubfast* and *sunfast*. You can always rely on our claims of *sunfast* or *tubfast* as we make them only after our laboratory places its O.K. upon the merchandise.

Consider the above points when buying curtains and draperies from Pages 209 to 225.

SIZE, 70x80 IN.
Colors: GRAY, TAN or WHITE

A "PAIR" Is Two Full Length Blankets Woven in One Continuous Length

FINE QUALITY COTTON

Clean, new . . . and the pick of the American crop. PENNANT Quality Blankets are carefully woven to produce a soft, almost fur-like texture.

Full SIZE and Extra WEIGHT

This year brought many changes in blanket standards. Standard weight for a 70x80-inch cotton blanket is 2 8/10 lbs. Some blankets have been cut to 2 5/10 lbs.; but PENNANT blankets must be woven according to the rigid standard of 2 8/10 lbs.

More Tensile STRENGTH

We buy blankets by tensile strength. This means how much strength the texture has, and by it may be determined the wearing qualities and serviceability.

Expert Workmanship

SEARS blankets are made in the mills of the country's best manufacturers of American cotton blankets. Experienced workmen supervise every detail of their structure.

No Blanket Values Anywhere to Compare With These

PENNANT is quality you know . . . quality you can bank on for maximum service. Priced at SEARS like inferior grades are priced elsewhere. **BUY NOW**—PENNANT blankets are the choice of thousands of customers for "year 'round use."

Ends are finished with firm stitching. Contrasting colored borders. **Be sure to STATE COLOR.**

—Mitered Border design resembles hand stitching.
—Deep 18-inch border matches solid color back.

Use your comforter as a decoration too! Here's one you will love to display without a spread over it. Note how the imitation hand-guided stitching forms the design over mitered border. Adorably "puffy" and hand made looking. Beautiful to give or receive as a gift. **Colors listed above.**

ABOUT COMFORTER Sizes—Finished Sizes Measure Less Than Cut Sizes

Sizes of Comforters are sizes of the CLOTH as CUT. Comforters shrink irregularly in the making. Shrinkage varies in accordance with the thickness of the filling and with the makeup and stitching. The elasticity of materials also allows a difference. When ordering, please remember **finished sizes measure less than cut sizes.**

- LABORATORY TESTED . . . . *Every thread all wool; better quality than usual at this price.*
- *Specially woven to our own specifications.*
- *Napped so it has the proper air spaces between the fibers.*
- *RETAINS HEAT even after years of service.*
- *Attractive COLORS.* Only good wool will take dyes so beautifully.
- *Wide lustrous sateen binding.*

Soft, lovely ALL WOOL . . . the kind you're proud to own! and NOW blankets come in beautiful colors for bedroom decoration . . . not the dull, drab things they used to be. Our colors are selected by a staff of color experts who give you the latest in color harmony. Colors listed in panel above. State color. Don't deny yourself the luxury of ALL WOOL blankets. SEARS WONDERWARMS are RECORD-LOW PRICED! No more than you paid for Part Wool Blankets a few years ago.

Tested and Approved by Sears Laboratory

HEAT RETAINING: Rigid tests showed the nap of our All Wool Blankets to be of the proper thickness and softness to give comforting warmth: and yet have the required strength to give lasting service. Our LUXURY SLEEP—by actual test—retains heat 20 percent better than our lower priced *WONDERWARM* blankets.

THREAD COUNT: Blankets are selected by the number of yarns to the inch. These blankets have been carefully measured by a Lowinson thread counter and the results are: *Falcons* average 29 thread counter and and 25 in the filling. LUXURY SLEEP averages 32 threads in the warp and 29 in the filling.

BREAKING STRENGTH: The durability of a blanket depends largely on the amount of strength and pull it can stand. Our manufacturers are instructed not to "over-nap", our blankets, so that the Falcons will test on an average of 31 lbs. per inch for the warp and 19 lbs. per inch for the filling. Our Luxury Sleep will test 42 lbs. per inch for the warp and 19 lbs. per inch for the filling. This is more than the amount considered necessary by nationally known manufacturers.

THERMO FALCON

A Genuine ALL WOOL Blankets

—Fine, long, wool yarns.
—Thick, fluffy nap for warmth.
—Beautiful plaids: Blue and white, Rose and white; Gold and white; Orchid and white; Green and white; Tan and white; Red and black. *State color wanted.*
—Extra wide, lustrous sateen binding.

"Good-bye" to cold, shivering nights if you sleep under a Thermo-FALCON! Its rich, thick, soft all wool nap protects you and keeps you cozily comfortable. Thermo-FALCONS will wash beautifully and their fresh loveliness will last for years.

Charming pastel colors have been selected for us by leading stylists and Interior Decorators. Thermo-FALCONS are higher grade than our WONDERWARM quality—but prices are very low, considering the years of service they will give.

- **Full Standard Weight, of Course!**
- **Finest, Strong, Clean, Long Staple American Cotton. Fleecy, downy nap.**
- **Snowy WHITE contrasts with clear, bright COLORS.**

To set LOW PRICES, many mills have cut costs by cutting weights. For instance, the 70x80-inch blankets are made with only 2 5/10 lbs. of cotton instead of the standard 2 8/10 lbs. Of course the result is a poorer, looser woven blanket. At SEARS, you'll find the same standard weights we've always sold and the same fine quality. But because we took advantage of LOWEST COSTS, our prices are as low as inferior grades sell for elsewhere. Made up to the usual high standards of NASHUA QUALITY. And the perfect colors are possible because ONLY the **whitest, finest cotton will take dyes so beautifully.** You'll find these are just the splendid blankets you need for year-round use. STATE COLOR WANTED.

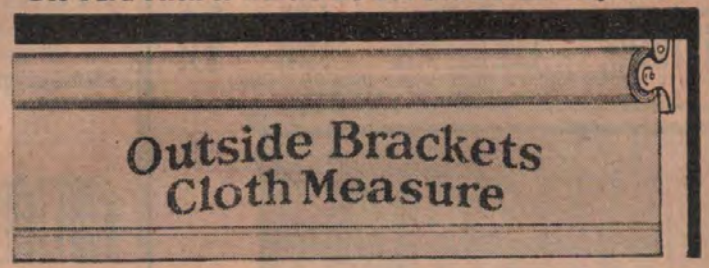
6 Necessary Points of INFORMATION

1. ***Catalog Number*** of the quality and style you wish. If the number contains a fraction, be sure to include it.
2. ***Quantity*** State how many you need of each size. See "HOW TO MEASURE" below.
3. ***Widths*** Tell us whether widths are cloth measure or tip to tip of roller. Do not use cloth measure if shades are to be installed inside of casing.
4. ***Brackets*** State whether you wish Inside or Outside brackets.
5. ***Lengths*** Give lengths. Measure from top to bottom of windows and add 6 inches to allow easy raising and lowering.
6. ***Color*** **State Color.** Select from the colors listed in the quality and style you wish. We will send samples free on request.

HOW TO MEASURE

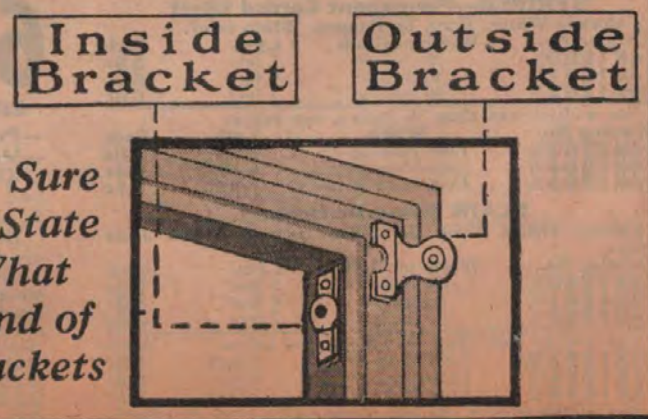


For Made-To-Order Shades

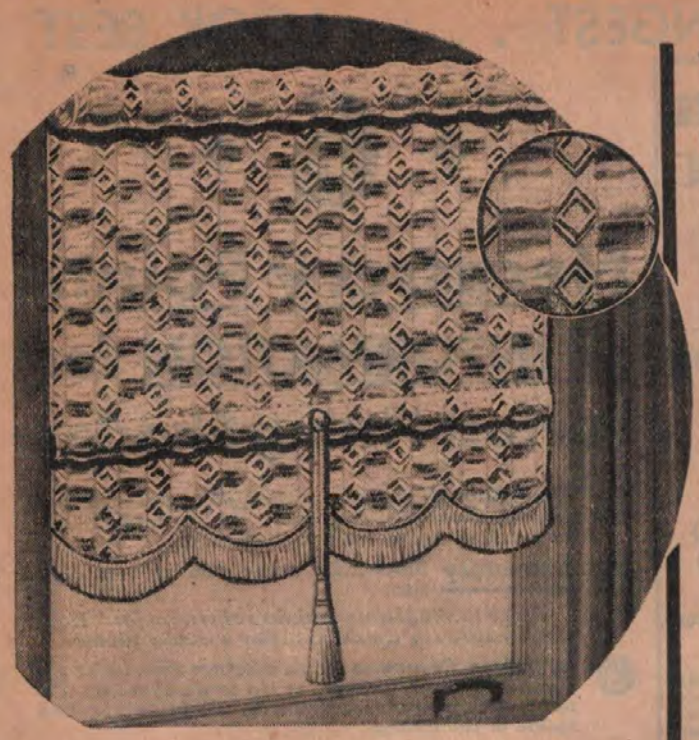
Give Cloth Measure (*for outside brackets*) or Tip to Tip Measure of Roller (*for inside brackets*).

Measure Each Window Separately

Use Yard Stick or Ruler. Do not Use a Cloth Tapeline.



Above diagram shows window shade hanging on the *OUTSIDE* (or face) of *CASING.* If you want your shades hung this way, give *width of cloth* and be sure to specify *"OUTSIDE BRACKETS"*



For the *length,* measure from *top to bottom* of window and add 6 inches to allow easy raising and lowering.

Above diagram shows window shade hanging on the *INSIDE* of the *CASING.* If you wish your shades hung this way, give the exact *width of the roller* from *tip to tip,* or take the *measurement* at the *top of the casing between the stops,* and specify "INSIDE BRACKETS." Measurements for shades hung in this manner should be very accurate, even to a sixteenth of an inch.

Things You Should Know to Determine Window Shade Quality

MUSLIN: We have established a standard for the basic muslins of each quality window shade; first by the thread count (number of threads to the square inch); second by the pulling strength of the cloth. Only muslins meeting these standards are used.

HAND MADE: Oil Colors are painted on by hand over a fine non-transparent muslin base; cost slightly more but wear longer. Only best oil paint and sizing used.

MACHINE MADE: Best Oil Colors are painted on by machine; over good quality non-transparent muslin. Long wearing.

In our shade price lists, "WIDTH, INCHES" is the width of the cloth. If the exact size you wish is not given in the following listing, the next larger size will be charged, but the shade will be made the size you order.

PREMIERE UNFILLED HAND MADE OIL OPAQUE QUALITY

Made to Measure in Our Own Factory

- High quality muslin; gelatine sized.
- Pure linseed oil paints are thoroughly brushed by hand into this muslin; first on one side; then on the other.
- Contains absolutely no filling; is non-transparent. Will not crack, pinhole or shrink.
- Ring shade pull and decorative button fastener included.
- Will remain smooth and pliable. Specially treated, to withstand the actions of heat, cold and moisture.
- Mounted on HARTSHORN Nickel trimmed rollers.

It pays to select these splendid quality shades—they look better; wear longer and cost only slightly more than the Machine made oil opaque quality. We use Hartshorn wood rollers on shades up to 72 inches wide. Larger sizes are mounted on metal rollers. Although we quote prices on shades up to 82 inches in width only, we can furnish any size up to 150 inches wide by 12 feet long. Write for prices before ordering.

Shade cloth 48 inches and wider is made of heavier fabric and may not always exactly match colors of smaller shades, but the variation is hardly noticeable. Colors listed in panel above. **State color.**

Using materials in tremendous quantities and making our own shades, result in ECONOMY PRICES and the biggest possible savings.

Shipped from our store or from our CHICAGO factory.

Necessary Points of INFORMATION for Perfect Fitting Shades

1. ***Catalog Number*** of the quality and style you wish. If the number contains a fraction, be sure to include it.
2. ***Quantity*** State how many you need of each size.

Refer to diagrams and descriptions for "How to measure for made to order window shades."

3. ***Widths*** Be sure to tell us whether the widths are cloth measure or tip to tip of roller. Do not use cloth measure if shades are to be installed inside of the casing.
4. ***Brackets*** State whether you wish Outside or Inside Brackets.
5. ***Lengths*** Give lengths. Measure from top to bottom of windows and add 6 inches to allow easy raising and lowering.
6. ***Color*** State color. Select from the colors listed in the quality and style that you wish. We will send samples free on request.

For measuring use yardstick or ruler. Do not use a cloth tapeline.

For as little as $5 down and $5 a month you can have the Britannica in your home for your daily use and enjoyment

THE new Britannica holds the latest and the most authoritative information on *every subject of human interest*. It is a practical guide to all occupations and avocations—an incomparable source of accurate information and entertainment.

Consequently, it increases your usefulness. It creates opportunity for you. It helps you get the most out of life. And if you buy the new Britannica for your children you bring to them early the same advantages.

The Use of Credit Is Wise

If it is not convenient for you to pay outright for the Encyclopaedia Britannica, do not deny yourself and your family this invaluable possession.

Use your credit. Credit is your asset, and, *wisely used,* enriches you and ensures you the actual and continuous profit from a sound and permanent investment.

The use of credit is wise when it acquires needed commodities which are not perishable, but which continue to render a needed service.

No one can use up or outgrow the Britannica. You and your family will use it constantly through many, many years to come.

For Men, Women and Children

The use of credit is wise when it enables the purchaser to add to his business knowledge and increase his earning power. Or when it increases the creative resources of the home.

The Britannica is a necessity, not a luxury. The practical knowledge it contains increases the efficiency and the power of all who use it.

The use of credit is wise when it widens the educational possibilities of the children in your home.

Children need the Britannica. It makes their school studies easier. It helps them determine what to do in later life, and helps equip them to do those things successfully.

The use of credit is wise when it accomplishes an unexpected saving—securing something that is needed, and that might cost more at a later time.

Now at an Unusually Low Price

You save a substantial sum of money by ordering today, for you can now buy the latest 14th Edition of the Britannica at the lowest regular price it has ever been possible to sell it for.

Exercised thoughtfully, in any or all of these ways, the use of credit is not an extravagance. Instead, it is an investment. It is, in the best sense, *thrift.*

The purchase of the New Britannica, under any of the many arrangements possible, is an investment of permanent value, which pays a dividend every time it is consulted. Its service begins as soon as it is in your home—it helps you get the most out of life.

World's Most Useful Set of Books

The Britannica brings you everyday information for everyday needs in your home, on your farm, in your business. It is the most useful set of books in the world—this is the verdict of educators, critics and families everywhere.

In your business, it brings you the latest experience of business men throughout the world. It is a guide to careful and thrifty business. *For the school child,* it answers every question and simplifies school work.

Such a powerful instrument of education helps determine your standard of living, and goes a long way toward actually making it possible for you and your children to enjoy the best things of life.

Its service to you begins as soon as it is in your home. *It is to your advantage to send for full particulars today about the Britannica, the price and easy payment plan.*

A compact bookcase, made of mahogany, is especially designed to hold the set.

The Owners Say

NATHAN ABBOTT, *La Jolla, Calif.*
"The most for the money of anything I ever bought."

FREDERICK F. GRASSER, *Kankakee, Ill.*
"A splendid investment at the right price."

A. C. JOHNSTON, *Kenton, Ohio*
"A remarkable set of books worth a great deal more than your price."

FREDERICK B. WILLIAMS, *New Haven, Conn.*
"A magnificent work. A complete library. A splendid art gallery. The finest encyclopaedia I ever possessed."

Did You Know?

Our Linen Buyers go annually to the great linen centers of Ireland, Scotland, France, Italy, Germany, Belgium and Czechoslovakia. China and Russia, too, are members of Sears League of Linens, which recognizes and welcomes all nations which produce fine linens. And because we are our own importers and distributors, we reduce prices to the point which places us among the great linen merchants of America.

QUALITY Comes FIRST at Sears

ABSORBENCY! That's what you look for in a towel! And this towel has it to a wonderful degree . . . hard to believe, but laboratory tests prove it actually absorbs *more than THREE and ONE QUARTER Times its own weight in water!* Much more than towels others are selling at higher prices will absorb.

Extra fine, clean, strong cotton had to be specially spun and specially woven to make this as it is! And it took the combination of 1932's low level markets and the buying power of the World's Largest Store to be able to set this low price!

Other Amazing Facts Proved in Severe Laboratory Tests

- Weight per Square Yard is HALF a POUND.
- Crosswise Tensile Breaking Strength 49 Pounds.
- ALL FAST COLOR Borders.
- Extra Strong Selvages.
- SIZE, ABOUT 22x44 INCHES, in accordance with the Sizes Recommended by Government Bureau of Standards.
- Double Loop Construction . . . Soft, Luxurious Pile.

Here is quality in a new edition . . . quality that spells usable value . . . the practical kind that may be had at a reasonable price. These Features Prove Superiority!

—Made to measure to fit exact pattern of your own table top.
—Liquid proof. Top easily cleaned with damp cloth.
—Heat resisting. Pad super-insulated by layers of part wool felt and asbestos.

This pad protects perfectly the carefully finished top of the modern table. Pleasing pearl-white Du Pont Fabrikoid with a beautiful futuristic design, that blends with the sheerest tablecloth, is used for the top side. There are pads made and sold today which cost less than ours, but which we refuse to handle. We know that our pad is one of the best sold, and one in which we are confident in giving our guarantee of protection.

Reversible

Reverse side is **green cotton and wool felt** of high insulating qualities. Each pad folds in four hinged sections for easy storing.

Measuring Instructions

We require a paper pattern of half the table top without leaves, not including extended, beveled or sloping edges. Use paste, not pins, in making paper to size. **Be sure to print your name and complete address on pattern. To order leaves only, state 19K302½, 19K304½, or 19K306½, quantity, length and width.** Pad price is based on closed table length, without leaves. Leaves are extra and priced according to width only, any length being available.

Sears New Development

"Chassis-Bilt"

Insures Maximum

STYLE *and* BEAUTY

This is the most important shoe development of the generation . . . CHASSIS-BILT permanence.

Just as world-known architects or famous cabinet makers begin each masterpiece from one separate and distinct "skeleton", so every shoe that comes from Sears shops will have its origin in one separate and particular chassis - - - designed as nearly perfect for that shoe's particular needs as a framework can be.

That means that there is a Sears shoe designed for your one purpose as though made for you alone. That means style is not merely added to your shoe but is built into it from the beginning.

How "Chassis-Bilt" Construction Created the Model Shown Above . . .

Every shoe on the pages following has its CHASSIS-BILT specifications carefully marked and tabulated in a great "master book" kept in the executive offices of Sears, Roebuck and Co. Follow the CHASSIS-BILT construction features taken from the specification chart of this feature shoe—see how they carefully build the chassis clear to the last detail of construction.

This complete control of materials and workmanship is carried on to the final stitch. Every ounce of leather and trimming must meet the rigid specifications stipulated when the chassis is laid. You are assured of built-in quality in the parts that can't be seen. You are assured of *style permanence* as never before in shoe history.

1. Selected sole leather from the stronger part of the hide.
2. Fine quality box toe retains shape.
3. Steel - riveted shank, built-in steel arch supports.
4. High quality drill vamp lining.
5. Fine, smooth leather quarter lining.
6. Soft, pliable leather uppers from select stock.
7. Comfortable, heel - hugging last.
8. Guaranteed, moulded counter.

"Modern women, who well know that foot-fitting is an art, will tell you that in order to glorify the foot's natural loveliness, designers must begin right from the framework . . from the first cutting of the leather . . from the very chassis itself. In that way alone can *permanent style* be assured. That is why 'CHASSIS-BILT' Construction will be so important to new 1932 lines."

Want Comfort?

Try a Pair of These "Chassis-Bilt" Footline Shoes

A *The Footline Arch bridge—a steel arch support plus a reinforced two-rivet shank gives a firm foundation—from heel to ball . . . always foot comfort.*

B *Footline shoes provide flat innersoles that give the forepart of the foot ground-like support. They allow natural movement, full freedom and unhampered circulation.*

C *Many ordinary shoes lack the flat innersoles—their innersoles are rounded. Bones are jammed together . . . there is pain, strain and pinching.*

D *The sole is moulded at the forward end of the arch bridge, acting the same as the thumb above. It rests and relaxes the foot, and the toes assume their natural position.*

Style-Rite's steel Arch supports are matched to your individual shoe and personal requirements. No matter what size, shape or weight your shoe is—the steel arch support is matched to fit it. Further proof that Style-Rite shoes offer the utmost in value at or anywhere near its price.

All Style-Rite shoes are now made by the Modern Cemented process. Soles are welded to the uppers by a narrow band of waterproof celluloid cement instead of the usual stitches and nails. Positively nothing to hurt the feet and the shoes will hold their shape longer than those made by the ordinary method. You are sure of more firmly attached outersoles, smoother insoles and more dependable fitting qualities.

"CHASSIS-BILT"

When a shoe is built with style plus comfort, that's exceptional; but here we have 3 shoes with style and comfort plus "Chassis-Bilt" construction. That's an unbeatable combination of value! We haven't the space to explain "Chassis-Bilt" here, we suggest you turn to page 270 and read the whole story for yourself.

Comfort at Money-Saving Prices

No one would guess that hidden behind this dainty style is a steel arch support and other comfort features. We expect this "perky" model to be one of the season's most popular. Its style and comfort features are anchored in quality because of our "Chassis-Bilt" construction which assures long satisfaction.

Sizes, 3½ to 8; also 9. Medium wide widths. State size. When not included in a $2 order, send 10¢ for postage.

Sears new "Chassis-Bilt" methods take away all need for thick, bulky construction in arch support shoes. For proof you have but to look at the slender graceful lines of the shoe above. Now as never before style and comfort can go hand in hand. And the price is much lower than even we dared hope!! Quality far better than price indicates!!

15K2600—Black Kid.
15K2599—Patent Leather. PER PAIR **$1.49**

Sizes, 3½ to 8; also 9. Medium wide widths. State size. When not included in a $2 order, send 10¢ for postage.

To term a shoe a comfortable-wearing shoe sometimes causes misunderstanding, because it is believed that if a shoe is built on comfort-insuring principles it must necessarily be clumsy and lacking in style. Our aim in designing these shoes is that if the beautiful lines and contours that nature has given the feet, are followed - - - **the styling and making of the footwear cannot help being trim and graceful.**

15K2621—Patent Leather.
15K2620—Black Kid. PER PAIR **$1.49**

GOODYEAR WELTS

CHASSIS-BILT MEANS All leathers specified for Sears Chassis come from the smoother part of the hide. Every hide is inspected and tested before a piece is cut.

Fine Shoes Need Not Be Costly

"Chassis-Bilt"

Goodyear Welt Construction is the one best method for making Men's Dress Shoes and Oxfords. The Insoles (Genuine Leather at Sears) are smooth. There are no tacks or threads to hurt the feet and the shoes hold their shape better.

CHASSIS-BILT MEANS Paper insoles are not even considered because they rot and break easily when they become damp. All insoles in Sears Genuine Goodyear Welts are GENUINE SOLID LEATHER.

ABSOLUTELY WATERTIGHT!

See Page 316

"Chassis-Bilt" Proves It By AIR TESTING

AT AIR TESTED WATERTIGHT

—Super grade materials throughout, vulcanized by pressure curing process.
—Extra heavy, cleated gray non-slip soles.
—Friction cloth lining; snag-resisting duck interlining.
—Thoroughly reinforced at every strain point.

Built like an 8-ply tire—NOW tested like one! For Sears great boots are now **"Chassis-Bilt,"** and one final specification is AIR-TESTING to prove them ABSOLUTELY WATERTIGHT. They are air-filled like tires—then thoroughly tested in great vats of water before they leave the factory. Naturally this giant is of best materials obtainable. Soles give longer wear than the ordinary kind.

Air Tested

"Chassis-Bilt"

AT AIR TESTED WATERTIGHT

This Test Means..

Any rubber footwear bearing the "A-T" stamp has proved it's watertight, all-rubber strength just as giant tires do in the nation's greatest tire factories. It means we have filled it with air, thrust it in water, and put it to nature's own air test. Not an air bubble must appear—or it is not good enough.

Again Prices are LOWERED!

MEN'S SIZES $1.69 PER PAIR

Again CONSTRUCTION Is Improved

- **Sturdy black rubber strongly reinforced at all points of strain.**
- **Extra heavy cleated soles—non-slipping, longer wearing.**
- **Snag-resister toe. Non-slip counter—no rubbing at heel.**

NOW Sears gives indisputable proof of the WORLD'S GREATEST BOOT VALUE. NOW AIR TESTING shows how much watertight quality has been packed in at this great 1932 price!

Be Fair to Your Purse! KNOW What You Buy

LOOK at the TRADEMARK!

All rubber footwear showing the Flint Rock symbol we guarantee to be made from the best materials and generally superior to the best standard super quality brand. Sears new development of Chassis-Bilt is followed throughout this grade.

This symbol on our rubber footwear means it is equal in material and construction to the best standard first quality merchandise sold elsewhere. Chassis Bilt. Compare prices.

This symbol on our rubber footwear signifies a standard quality which we guarantee to give longer wear than so called intermediate or 2nd quality sold today. Compare our prices.

FOUR QUALITIES OF RUBBER

Every reputable store marks plainly which quality you buy—extra super grade, first, second and third. Third quality is not sold by Sears at all—it does not meet our "Chassis-Bilt" specifications. Buy rubber footwear according to these three SEARS quality trademarks.

IN CASE OF BIG DEMAND

At times the demand for Sears rubbers is greater than we can supply at once. In such case we send you a rubber of well known brand which we fully guarantee. We always endeavor to send a grade higher than ordered.

Chassis Bilt

In rubber footwear, as in leather shoes, "Chassis-Bilt" means "made according to Sears rigid specifications of construction and quality."

Our Popular BLOSSOM BRAND RAYON HOSIERY

RAYON HOSIERY

Thousands of women changed to Rayon hosiery last year! Changed to Sears Blossom Brand—the rayon stockings that look like silk and cost half as much! Finely knit smartly finished! Made of Chardonize Rayon—that has much of the sheerness, the elasticity, the smooth, light feel of real silk. They're naturally low-lustered, won't turn shiny after washing.

Colors: Nude, New mode, White, Matinee, Suedette, Light gunmetal, or Dark gunmetal. Sizes, 8½, 9, 9½, and 10. State size and color.

When not included in $2.00 order, send 3¢ postage for one pair, or 5¢ for three pairs.

75K905—BLOSSOM "SPORTSGIRL" A tiny, flattering, **pin-sized** mesh. Won't snag readily and is practically runproof. French heel; seam effect in back. Chardonize Rayon-covered heels, tops, and soles, lined with mercerized cotton. Mercerized cotton toe and lower heel.

75K2401—BLOSSOM "HOSTESS" Finely knit of dull Chardonize Rayon. Mercerized cotton toes and heels. Picot tops. Seam effect and fashion marks in back. Chardonize Rayon covered soles and curved French heels. Seamless feet.

MISSES' SHAPED STOCKINGS.

- *Fine Mercerized Cotton.*
- *Trim Fit at Ankle.*
- *Calf and Leg Actually Shaped to Fit.*
- *Stretchy, roomy top.*

At last, smart fit plus long wear. This stocking is knit on a specially designed machine by an entirely new principle; so that it is virtually formed to fit at all points. The ankle is tapered to fit; calf and leg are actually tailored into shape. The top is nice, roomy, and stretchy. There are over a hundred more needles in the top than at the ankle. See the back view showing the narrowing of the fabric at the calf and ankle.

Made of fine, clear mercerized cotton. Very fine gauge. Reinforced heels and toes. An ideal stocking for the woman who likes the nicer things but is economizing with cotton hosiery. Exceptionally nice for the sportsgirl, hiker, or golfer.

To introduce this new stocking we have made this very low price.

- *One-half wool, half mercerized cotton.*
- *Seamless, form fitting.*
- *Reinforced toe, heel and top.*

86K2546—Flesh Color.
Sizes, 8½, 9, 9½, and 10. State size. When not included in $2.00 order, send 3¢ for postage.

A thin, soft inner stocking that does not show through your silk stockings. Made without seams, and dyed a true, soft flesh tint for invisibility. Very fine gauge.

Korker's price is reduced! Korker's value is increased! Korker is now a heavy, 16-strand, silk sock instead of a 12-strand. We believe this extra heavy weight of silk makes the soundest, strongest, longest-wearing fabric possible in a silk sock. Extra reinforcements double and redouble the wear . . .increase the comfort, and save hours of mending. Cushion double sole is smooth and seamless.

NOBILITY Suits are Sears finest, because the knit from the finest wool and cotton y obtainable. Made by one of America's best tailors knit underwear.

They are made to fit perfectly, which means extra comfort to you.

This year, Sears bring you this DeLuxe underwear with all its high quality and features at prices much lower than ever before.

Sketches below show how carefully the smallest details are planned to increase the comfort of Nobility suits.

Extra Freedom Through Shoulders

Cross ribbed fabric inserted at shoulders allows a slight "give," prevents tension, and shapes the suit to fit.

Comfortably Tailored Crotch

Careful tailoring shapes crotch to fit easily and naturally with just the right amount of elasticity for comfort.

Fine-Quality Even in Small Details

Fine, sparkling quality pearl buttons. Notice how closely the stitches are set—an important factor in preventing rips. Notice the wide sateen facings that give the front a smooth, comfortable inner surface.

- ★The sheepskin linings are all of select quality.
- ★The leather is selected front quarter horsehide—chrome tanned to keep them soft and pliable. (The United States Testing Bureau proved front quarter horsehide 5 times stronger than other parts of the hide.)
- ★The moleskin is tough, sturdy, stormproof, windproof and showerproof.
- ★Sheepskin collars are thick and warm. The same high grade materials used in our men's coats.
- ★All coats are cut full and roomy. Size 18 measures 30 inches in length—other sizes in proportion.

Consider these facts when comparing prices.

Wool Mackinaw Lining

—Genuine front quarter black horsehide.
—Chrome tanned, soft and pliable.
—All wool Mackinaw cloth lined.
—Sleeves lined with sturdy drill.
—Adjustable collar and cuffs.

Our Famous *Arctic Giant*

—Water Repellant—Our Best Moleskin cloth Coat.
—Fine grade, Heavyweight drab Moleskin cloth.
—Warmly lined with select woolly sheepskin.
—Big, woolly wombatine (dyed sheepskin) collar.
—Full lined sleeves and warm, snug knitted wristlets.

Our famous "Arctic Giant" is the kind of coat that laughs at Old Man Winter! It is our best heavyweight, water-repellant Moleskin cloth and lined with long wool sheepskin—that long, thick wool that is extra warm. The same kind as used on our men's coats. The low price means a big saving, too.

Why Sears Suits Wear BETTER

1. We test every fabric for strength and select only those that we know will stand the wear and tear boys give their clothes.
2. We also test the strength of the linings and trimmings. All linings are selected for service as well as appearance.
3. All seams are closely stitched with strong thread and every strain point is securely bartacked.
4. Buttons are securely sewed with heavy thread. Will not easily pull off.

Our Most Inexpensive All Worsted Suit

—Good grade Brown all wool worsted.
—Buttons sewed on by hand.
—Coat and vest full lined.
—Wide cuff bottom longies.

(F) For an inexpensive all wool worsted suit, we think this model is very good for the low price. The fabric is not quite as heavy nor probably as long wearing as the other two all wool worsteds shown on this page. It is, however, a very good value, and answers the demand for a worsted suit at a much reduced price. **ALL SIZES—10 to 18 years. State age size. Postpaid.**

40K3030—Brown All Wool Worsted Suit..... **$7.65**

"Remarkable Bargain" Says Our Buyer

—All Wool and silk cassimere.
—Full lined coat.
—Tattersall vest.
—Wide cuff bottom longies with emblem, strap and buckle in back.

(G) This serviceable close weave and semi-smooth finish wool and silk cassimere will give plenty of service. The rich brown shade is good looking for fall wear. Longies have adjustable buckle and strap at the back. **ALL SIZES—10 to 18 years. State age size. Postpaid.**

40K3029—Medium Brown.. **$4.65**

Our Very Best Suit

—All wool worsted smooth finish, fine weave fabric.
—Coat full lined with fine quality, lustrous lining.
—Buttons sewed on by hand. Most suits have machine sewed buttons.
—Wide cuff bottom longies.

(H) We have certainly put an unusual amount of style and quality into this three-piece model! The brown, in a rich shade, so popular this season, has an attractive broken herringbone pattern to give it zest. The fine weave blue serge is always in demand. **ALL SIZES—10 to 18 yrs. State age size. Postpaid.**

MEASURE YOUR BOY (according to instructions below) and then order the **AGE-SIZE** nearest **HIS ACTUAL MEASUREMENTS.** The measurements given opposite each age-size are the actual measurements of our suits. When ordering, use order blanks in back of catalog.

For **CHEST SIZE,** measure around chest, over shirt or blouse. Place tape measure under arms and over shoulder blades. See Illustration.

For **WAIST SIZE,** measure around trousers at waist without belt. See Illustration.

For **INSEAM SIZES,** measure from crotch to top of heel.

Also state height and weight. See Illustration.

Always Attractive

—All wool and worsted 14-oz. Cheviot.
—Navy blue with subdued herringbone pattern.
—Strong mohair alpaca lining in coat and vest.

(B) Blue is always "right" wherever you want to wear it. We selected a medium weight fabric and carefully tailored it into a handsome, smart looking suit. The fabric is strong and sturdy and will give plenty of real service. Stylish and good looking suit at a low price. **ALL SIZES—9 to 18 yrs. State age size. Postpaid.**

40K3022—Coat, vest and long pants..... **$5.95**
40K3023—Same suit with extra long pants..... **7.95**

One of Our Finest

—Pure All wool worsted.
—Navy blue attractive diamond weave pattern.
—Coat lined with lustrous lining.
—Hand sewed buttons on coat and vest.
—Wide cuff bottom longies.

(C) A remarkable combination of style, tailoring, long-wear and low price! All wool worsted keeps its shape and takes a keen, sharp crease. These features assure a dressy, stylish suit at all times. Tailored to our rigid standards of quality, we have produced an unusually attractive suit at a real money-saving price. **ALL SIZES—10 to 18 years. State age size. Postpaid.**

40K3024—All Wool Navy Blue Worsted..... **$7.95**

All Wool Cassimere

—Medium brown all wool cassimere with distinct herringbone weave.
—Sturdy Gibraltar lining in coat.
—Hand sewed buttons on coat and vest.
—Wide Cuff Bottom Longies with Emblem.

(D) A dark shade of brown that is extremely popular in both boys' and men's suits this season. A long-wearing, dressy suit that you will appreciate both for its attractive appearance and the saving you make. **ALL SIZES—9 to 18 years. State age size. Postpaid.**

40K3025—Coat, vest and Longies **$4.95**
40K3026—Same suit with extra Longies..... **6.75**

Style—Color—Value!

—Navy blue Serviceable Cassimere—More than ½ wool.
—Stylish peak lapel coat.
—Stylish Tattersall vest.
—Cuff Bottom Longies with pleats.

(E) This is certainly a keen looking suit! Made with many of the snappy style features of the more expensive suits of the young men's department. We bought thousands of yards of this more than half wool cassimere to offer this low price. **ALL SIZES—9 to 17 years. State age size. Postpaid.**

40K3027—Coat, vest and long pants..... **$4.59**
40K3028—Same suit with extra pair of long pants..... **5.98**

Our Most Inexpensive All Worsted Suit

—Good grade Brown all wool worsted.
—Buttons sewed on by hand.
—Coat and vest full lined.
—Wide cuff bottom longies.

(F) For an inexpensive all wool worsted suit, we think this model is very good for the low price. The fabric is not quite as heavy nor probably as long wearing as the other two all wool worsteds shown on this page. It is, however, a very good value, and answers the demand for a worsted suit at a much reduced price. **ALL SIZES—10 to 18 years. State age size. Postpaid.**

40K3030—Brown All Wool Worsted Suit..... **$7.65**

"Remarkable Bargain" Says Our Buyer

—All Wool and silk cassimere.
—Full lined coat.
—Tattersall vest.
—Wide cuff bottom longies with emblem, strap and buckle in back.

(G) This serviceable close weave and semi-smooth finish wool and silk cassimere will give plenty of service. The rich brown shade is good looking for fall wear. Longies have adjustable buckle and strap at the back. **ALL SIZES—10 to 18 years. State age size. Postpaid.**

40K3029—Medium Brown.. **$4.65**

Our Very Best Suit

—All wool worsted smooth finish, fine weave fabric.
—Coat full lined with fine quality, lustrous lining.
—Buttons sewed on by hand. Most suits have machine sewed buttons.
—Wide cuff bottom longies.

(H) We have certainly put an unusual amount of style and quality into this three-piece model! The brown, in a rich shade, so popular this season, has an attractive broken herringbone pattern to give it zest. The fine weave blue serge is always in demand. **ALL SIZES—10 to 18 yrs. State age size. Postpaid.**

40K3031—Brown All Wool Worsted..... **$8.95**

Why HERCULES Overalls Are the Best

COST OF COTTON—We pay more per pound for cotton used in Hercules denim because our specifications call for a longer staple grade of cotton than is required in any other denim made.

GREATER STRENGTH AND WEAR—More warp and filling yarns used per square yard in order to produce its strength and wearing qualities.

LASTING COLOR—Only the best grade Indigo blue dye is used, plus a method that permits better penetration of the cotton fibres giving a more uniform color. Hercules overalls retain practically their original color after repeated washings.

SHRINKAGE—Not merely "Mill Shrunk." The number of shrinking processes given Hercules denim means less shrinkage in Hercules overalls than any other brand.

LIFETIME GUARANTEE—The quality of thread used for stitching and sewing is the very best grade. Buttons are also the best grade made. Boat sail drill used for side pockets is of the highest type of construction and is guaranteed to last the life of the garment.

Hercules overalls are cut to give the utmost degree of comfort. Nothing is spared to make Hercules Overalls the best money can buy.

Is there any wonder that Hercules challenge all overalls, regardless of price?

"Out-Values ANY Sheepskin Lined Moleskin Coat I've Ever Seen"

$5.75 And Up Postpaid

The Best Winter Protection Ever Offered at Anywhere Near This Low Price . . . . .

Men! Here's a coat that laughs at blizzards. Our Famous **Hercules** Sheepskin lined coat at the Lowest Price in Our History. And remember—it's a Hercules, too—a name we have always reserved for **merchandise of the highest possible quality.** You'll find it so far superior to similar garments now on the market you'll wonder how we can sell it at such a ridiculously low price. That's where our tremendous buying power and huge cash purchases count!

And warm! It's just like being wrapped in sheepskin. Because the lining comes within 3 inches of the coat edges instead of the usual 6 and 7 inches. And the moleskin cloth is specially constructed for Sears, closely woven and is far superior to all similar cloths now on the market. It's actually double the strength of most fabrics of this kind. There is no better winter protection—and we mean **just that! State chest measure taken over vest. Postpaid.**

41K500—Dark Brown Moleskin Cloth Sheeplined. Even Chest Sizes, 36 to 48 inches..... **$5.75**

"IT WAS 18° BELOW NEVER GOT A BIT COLD"

Americus Blanton of Brookville, Ind. wrote the above in a letter to us. Thanks a lot Mr. Blanton and when in need of another coat you'll find our coats greater values than ever before—because we've lowered the prices but kept the same fine warm quality that you liked so well. In fact our present assortment of coats are recognized leaders in value throughout America.

LAWROPELT Sheepskin Coat Linings were chosen by Sears, because they are selected pelts, produced by the World's Foremost tanners.

The name **LAWROPELT** on Sheepskin is like the name STERLING on silverware, it means only the best.

If lining is **LAWROPELT** you have the highest quality and best sheepskin lining to be had. Always insist on the best—**LAWROPELT.**

Weatherproof Dark Blue Corduroy

- Heavy, thickset, narrow wale corduroy,—the best quality and longest wearing.
- Genuine LAWROPELT Sheepskin Lining, thick and warm.
- Big, wide shawl collar of American Wombat (sheepskin).
- Warm, half wool knitted wristlets.
- Guaranteed unbreakable buttons.
- Armholes have reinforced arm shields.

It doesn't make any difference what you do or where you go, but if you have to be out in cold, biting weather, you'll find this tough, sturdy, good looking corduroy sheep lined coat will keep you warm and comfortable. Lower priced than elsewhere . . . of course!!

We've used the best of everything in its manufacture and it's sure to give long, satisfactory service. **EVEN CHEST SIZES—36 to 48 inches. State measurement taken over vest. Postpaid.**

41K557—HERCULES Dark Blue Corduroy Sheeplined Coat..... **$4.98**

All Wool and Worsted Blue Cheviot

$7.45 Postpaid

- ◆Strong, 14½-ounce all wool blue cheviot
- ◆Coat full lined
- ◆Unbeatable Value
- ◆Stylish wide trouser bottoms

An attractively styled and inexpensively priced dark blue **all wool and worsted** cheviot with subdued herringbone pattern. We sell thousands of suits of this fabric to students because of its good looks, long wear and because our low price saves about half.

Most fellows look their best in blue, and this long wearing cheviot always looks good because it doesn't shine easily. And while this cheviot isn't as closely woven as worsted or serge, the weight is a positive indication of very long wear. Regular vest. Trousers have removable emblem near right pocket.

SIZES—31 to 36 in. chest; 26 to 33 in. waist and 26 to 32 in. inseam. State measurements, also age, height and weight. Postpaid.

45K6210—Dark Blue all Wool and Worsted Cheviot.. **$7.45**

SIZE SCALE FOR MEN'S AND YOUNG MEN'S SUITS

To insure a perfect fit when ordering clothing from this catalog, **be sure and state chest, waist and inseam measurements as well as your height, weight and age.** When you measure your chest wear a vest, and measure over it. Don't order a larger size than you actually take as all our suits are cut full and according to a standard size range. Our descriptions show the sizes in which our clothes are made. If your size is listed, we guarantee the garment will fit you. Our sizes were obtained by securing the average of thousands of men and we believe they are the most accurate in the country.

For complete instructions, see "How to Measure" Page in the back of this catalog. The scale below shows the range of waist and inseam measures that can be furnished with each chest measure.

Chest for Regulars, stubs and slims	34	35	36	37	38	39	40	42	44

All Wool Plaid Back Double Twist Texture

- Yoke and sleeve lining of Farr-Ray Rayon satin.
- Yorkshire model; half belt.
- "Inside" patch pockets with bellows fold.
- Finest vegetable ivory buttons.
- Ample 47-inch length.

Two cloths in one!—double texture—double warmth—double wear. A two-ply fabric whose double weave outwears an ordinary fabric two to one! Handsome plaid back. Splendidly tailored; Rayon satin yoke and sleeve lining guaranteed for life of garment.

SIZES—34 to 44 in. State chest measure taken over vest; also age, height and weight.

Curled Worsted Weave ¾ Wool Blue Boucle

- Shapely lapels and half-belt.
- Yoke and sleeve lining of Farr-Ray Rayon satin.
- Fine vegetable ivory Buttons.
- Full 47-inch length.

The most popular overcoating on the American market. Because the long-fibered wool means longer wear, stronger service and more warmth. The genteel curled Boucle means the height of good taste, fine appearance and shape-retaining qualities. Yet our price underquotes some of the lowest figures we ever offered on this fabric. Designed to give that "big" look. Lining guaranteed for life of garment.

SIZES—34 to 44 inches. State chest measure taken over vest; also age, height and weight.

DURABILITY and PROTECTION

BUILT IN SEARS WORK GLOVES

SUPPLENESS. Through a careful selection of the leather and through careful tanning, all Sears work gloves have a suppleness and flexibility that is seldom duplicated. Hands never chafe in a Sears work glove or mitten.

PATTERN is very important in work-glove construction. A working hand needs plenty of room. All Sears work glove patterns are designed to give your hands room enough—and to spare—even with fists tightly closed.

DURABILITY. No expense is spared to build durability into Sears Work gloves. Finest materials, careful workmanship, leather welted seams, reinforced strap around thumb, horsehide pulls and reinforced strain points all insure utmost durability.

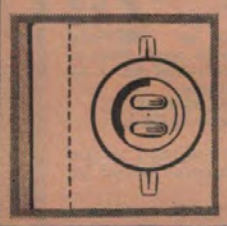
Fine Count
ESTABLISHES QUALITY



Quality's the main concern of wise buyers today. And Sears new *PEPPERELL FINE COUNT* shirts offer *quality you can be sure of,* fabric quality that has been America's standard since 1846, tailoring quality that has no peer at any price!

The year's smartest collar! Tailored with scientific exactness, with sturdy interlining; the stitching is fine and small. Designed to stay trim and smooth long after ordinary collars are wilted and wrinkled!

Soft single cuffs with a firm interlining to prevent wrinkling. Faultlessly tailored; gathered sleeves make cuffs hang straight; give plenty of elbow room. Fine stitching with good strong thread.

Just a detail—but very important! They're the finest Ocean Pearl Buttons, rich-looking and lustrous . . . with 4 holes, to make sewing more secure. Neatly worked, strong, non-fray buttonholes.

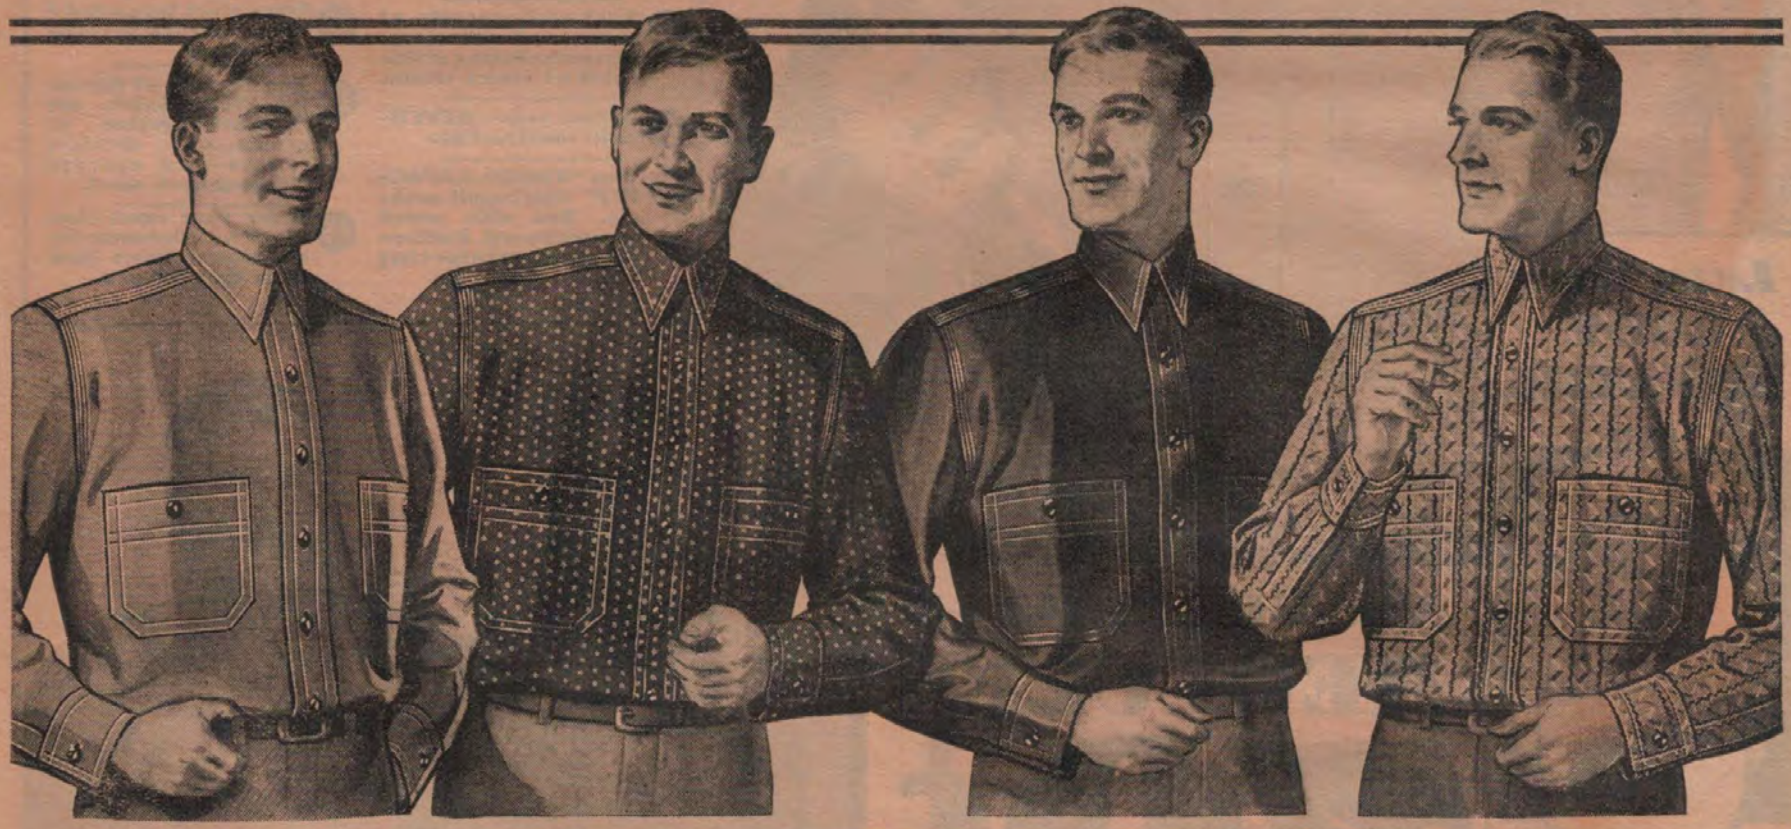
Sturdy Oak's LOW PRICE

Quality for Granted...Find the Truth!!

Sturdy Oak Work Shirts are generously sized. Plenty of body room, large armholes, big elbows and roomy cuffs. Longer, too, than the average.

Triple stitching in **Sturdy Oak** means triple strength at the strain points. That's where the wear spots are—at the important seams, and that's where **Sturdy Oak** is strongest. Only selected cotton thread used.

The collars on **Sturdy Oak** shirts are interlined, adding greatly to its appearance. A great many shirts do not have this lining.



"'Non-rip' sleeve facings on **Sturdy Oak**" is more than a phrase. It means a one-piece facing that *cannot rip*, that stands up to the extra wear and abuse arms and elbows always receive.

It would be easy to skimp at the pockets—but **Sturdy Oak** demands big and roomy proportions in every last detail. It takes extra cloth but it means more satisfied customers. Button-through pockets.

- **Good quality durable chambray.**
- **Triple stitched for extra strength.**
- **Continuous non-rip sleeve facings.**

Fine Chambray, not quite as tough a material as we use in 33K678, on opposite page, but tougher than most shirts at anywhere near this low price is used in this roomy coat style work shirt. Unbreakable buttons. Two large pockets.

Polka Dot Stifel Cloth

1. Extra-roomy "COMFO-CURVE" armholes. Will not bind.
2. Pre-shrunk materials and generous patterns assure maximum comfort.
3. STREAMLINE Dress-collar of 3 layers of chambray.
4. Extra-long side seams—no unsightly opening above trousers.
5. Anchored-gussets at bottom of side-seams prevent splitting at this point of severe strain.
6. Double yoke—NEVER-SLIP construction.
7. Two "ADDED-CAPACITY" Can't-spill pockets. One with pencil compartment. Button-through reinforcing welts.
8. Extra large interlined cuffs of 3 layers of chambray.
9. "THREE-NEEDLE KANT-RIP" seams at all strain points.
10. Heavy duty buttons. No paint to come off. Sewed with 7 loops of double strength thread twice knotted.
11. Sleeve opening protected by "NON-RIP" facing.
12. Every shirt inspected 4 times before leaving the factory.
